

Certified *Everything DiSC Workplace* Professional Development Facilitation

What's the benefit of *Everything DiSC Workplace* for you and your team?

As organizations become more focused on people as their best competitive advantage, they are turning to *Everything DiSC Workplace* to improve their workplaces. By offering strategies for creating a common language that translates across organizational hierarchy and industry, *Everything DiSC Workplace* builds better working relationships between people.

DiSC is a very simple—and memorable—model made up of four basic styles: D, i, S, and C.

- Provides a common language to help teams understand one another and work better together.
- Acts as a springboard for conversation and team building.
- Improves employee and workplace communication.
- Helps you to understand people who aren't like you...or are too much like you.
- Reduces conflict and avoids misunderstandings.

What does an *Everything DiSC Workplace* Training Entail?

Everything DiSC Workplace is a professional development training that uses an online pre-assessment, engaging facilitation, and optional online follow-up to create a personalized learning experience. Participants will understand and appreciate their personal style and the styles of the people they work with. The result is more effective and productive working relationships.

An *Everything DiSC Workplace* training covers the following:

- **Discovering Your DiSC Style:** discover how your DiSC style affects your workplace relationships and explore priorities that drive you at work.
- **Understanding Other Styles:** learn what works and what challenges you when interacting with other DiSC styles.
- **Building More Effective Relationships:** create strategies and an action plan to overcome challenges when working with people of different DiSC styles.
